

Shanghai Diesel Engine Co. Ltd. (SDEC) is the most renowned and popular engine brand for assembling the heavy duty generating set. FMW Power Co., Ltd. always chooses the best and appropriate brands for the particular generating set. The large units mainly used in the factories for long run. So, FMW Power assembles the large unit of generating sets by SDEC engine along with the STAMFORD or LEROY-SOMMER alternator. This combination of engine and alternator ensure the long performing life of generating sets with long operating time schedule.

SPECIFICATION

Gen set Type	GF200	GF250	GF330	GF400	GF500	GF550	GF600	GF700	GF800
Eng. Model	6126A-260DE	WT12D-308	SC25G610D2	SC25G610D2	SC25G690D2	SC27G755D2	SC27G900D2	SC33W990D2	SC33W1150D2
Standby Output (kW)	221	268	347	445	505	555	662	726	860
Fuel Consumption Lt/hr @ 80%	17	22	38	70	80	87	95	108	130
Speed (R/min)	1500/1800								
Cooling Method	Closed Water Cooled								
Starting Method	Electric Starting								
Alt. Model	UCI274J	HCI444D	HCI444E	UCI544C	HCI544E	HCI544ES	HCI544ES	HCI634G	HCI634H
Output(kW(kVA))	200/250	250/312	330/412	400/500	500/625	550/688	600/750	700/875	800/1000
Rated Current(A)	360	450	594	720	900	990	1080	1350	1440
Net Wight (Aprox.) kg	1800	2000	2300	3100	3800	4000	5000	5800	6500

***All the output capacity rated as Standby at 100%
For long run it should be rated as Prime at 90%
